Hi, I'm a Full Stack Developer, Blockchain Enthusiast, and an Open Source Contributor who is highly passionate about solving some problems that occurs in our day to day life.

Reactjs / Nodejs is my field of expertise. I have built some projects which got featured in ProductHunt.

I participated in Maker Festival ProductHunt and developed a Makers React Native App

Also, I'm a fresher who loves building cool things! These 'Cool things' include NPM Packages, React Libs, and a lot of random things that I built for fun.
